

Remarks

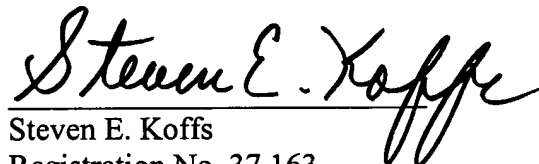

Applicant acknowledges with appreciation the Examiner's indication that the application is allowed.

Claim 1 is amended to clarify that the manufacturing lot is manufactured and moved, as opposed to requiring that the lot ID is manufactured and moved. One of ordinary skill in the art would have recognized that this was intended by the context of the claim language. No new matter or new issue of patentability is added. Therefore, entry of the foregoing amendments is respectfully requested.

In view of the foregoing amendment and remarks applicant submits that this application is in condition for issue.

Respectfully submitted,
